

# The iCup from OMEGA LABORATORIES, INC.

The iCup drug screen begins the screening process as soon as the sample enters the collection cup. Once the tests will begin to run, the system remains closed until disposal of the device. The iCUP drug screen is zero exposure, leak proof and tamper proof.

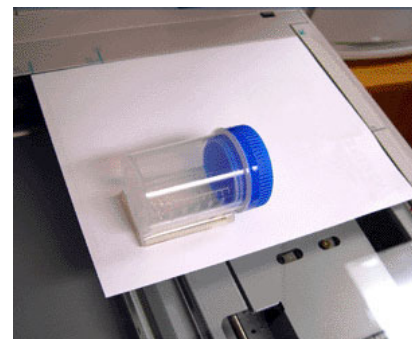

**The iCup offers a completely closed system for total urine specimen integrity and easy collection. The clear construction gives optimum observation of urine specimen.**

**Temperature strip to help validate integrity of specimen collection.**

**Large opening for easy specimen collection.**

**Results panel can be easily photocopied for a permanent record.**

## Detects Up to 9 Drugs

Phencyclidine	Methamphetamine
Amphetamines	Benzodiazepine
Marijuana	Barbiturates
Cocaine	Methadone
Opiates (Morphine)
